PROFESSIONAL SUMMARY

Computer Science and Engineering graduate with hands-on experience building AI/ML and full-stack applications using Python, NLP, Scikit-learn, FastAPI, Flask, React.js, and Gemini AI. Developed an AI-powered Resume Analyzer and a Fake News Detection System, with experience in machine learning, REST APIs, databases, and end-to-end application development. Strong problem-solving and software development skills focused on practical AI-driven solutions.

TECHNICAL SKILLS

Languages & Programming: Python, SQL, JavaScript

AI/Machine Learning: Machine Learning, NLP, Scikit-learn, TF-IDF, Gemini AI

Backend & APIs: FastAPI, Flask, REST APIs

Frontend: React.js, HTML, CSS

Databases: PostgreSQL, MySQL

Tools: Git, GitHub, VS Code, Jupyter Notebook, MySQL Workbench

Core Concepts: OOP, DSA, DBMS

PROJECTS

AI Resume Analyzer [live Demo](#)

2025 - 2026

Tech stack: Python, FastAPI, React.js, NLP, GEMINI AI, PostgreSQL, SQLAlchemy, JWT

- Developed a full-stack AI-powered Resume Analyzer using Python, FastAPI, React.js, NLP, and Gemini AI to analyze resumes and extract relevant skills, experience, and qualifications from resumes.
- Implemented AI-based resume evaluation and job matching by analyzing resume content against job requirements and generating actionable insights for candidates.
- Built secure user authentication, resume processing, automated analysis, and report generation features for an end-to-end resume optimization platform.

Fake News Detection System

2025 - 2026

Tech stack: Python, Flask, Scikit-learn, NLP, TF-IDF, Logistic Regression, Pandas, NumPy, HTML, CSS, JavaScript

- Developed a machine learning-based fake news classification system using Python and NLP, processing news titles and article content with text preprocessing and TF-IDF vectorization.
- Trained and evaluated Logistic Regression for binary classification, achieving 98.97% accuracy with 0.99 F1-score on the test dataset.
- Built a Flask-based prediction API and web interface that accepts news content and returns Fake/Real predictions with confidence scores.

EDUCATION

B. Tech in Computer Science & Engineering — CGPA: 7.39

2022 – 2026

Kalasalingam Academy of Research and Education, Krishnankovil, India

Class XII (Intermediate) — 64.3%

2020 – 2022

Narayana Junior College, Anantapur, India

Class X — 100%

2019 – 2020

Sri Chaithanya Techno School, Anantapur, India

CERTIFICATIONS & ACHIEVEMENTS

- SQL Certification --- CodeChef
- Design and Analysis of Algorithms Certification --- CodeChef
- Hackathon Participant --- Developed innovative project for PDF Summarizer
